

NAVINDRA PRASAD KHATIWADA
HEALTH CARE ASSISTANT

What Functional Skills courses have you completed?

I have completed Functional Skills Level 2 Maths and Level 1 English. Now, I am preparing for Level 2 English as well.

Tell us why you have taken your Functional Skills course and how they will help you in the future.

Functional Skills in English and Maths are understood to be the stepping stone for career development in England. I have worked as a Healthcare Assistant at Wexham Park Hospital since June 2022 and I am looking to develop further to become a nurse after completing my Nursing Associate apprenticeship.

Functional Skills in English and Maths are a prerequisite to begin my career development towards being a nurse, so I decided to undertake the courses.

What is next for you now that you have achieved your Functional Skills qualifications?

After completing my level 2 English Functional Skills, I believe I will get the opportunity to start my Nursing Associate course. This is an apprenticeship curriculum for learning while working, a step towards becoming a nurse.

Is there anything else you would like to share about your experience with Functional Skills?

Learning Functional Skills online has been a good learning platform for me. The online classes were full of motivation not only focus on reading, writing, speaking and listening skills but also motivated to read more books, watch TV programmes and listening to music in English.
